

THE QUERY MENU:

- Alias** Select this option to display any aliases listed by a party.
- Associated Cases** Select this option to display a list of related cases (such as adversary filings or cases that are jointly administered or consolidated with the current case).
- Attorney** Select this option to display a listing of attorneys associated with the current case (along with the address, phone number and e-mail of each) and the name, address and type of party that each represents
- Case Summary** This option provides additional information on the current case (such as county, fee status, case status, trustee/attorney information and dates of filing, discharge, confirmation, dismissal, closing and reopening if appropriate).
- Creditor** This option displays a list of creditor name and address for the current case and allows you to isolate specific types of creditors (such as the 20 largest unsecured creditors, administrative creditors and those creditors who have filed a notice of appearance).
- Deadline/Schedule** Select this option to compile a list of case deadlines - pending and terminated. Deadlines include hearing and meeting dates, objection dates, claim deadlines due dates for the filing of various documents. There are a number of sort options available.
- Docket Report** This selection allows you to generate a case docket. You have the option to display the entire docket or define a range by date or document number.
- Filers** This selection provides a list of those parties who have filed documents in the current case. Clicking on a specific party name will cause a list of that parties documents to display (along with the date of filing for each).
- History/Documents** This option provides a chronological listing of events in the current case. Similar to the docket report.
- Judge** This selection displays that name of the Judge assigned to the current case.
- Notice of Bankruptcy Case Filing** Choosing this option causes the Notice of Electronic Bankruptcy Filing to display (complete with debtor and attorney information, electronic time & date stamp and Official Court Seal)
- Party** This option generates a listing of all parties in the case (such as trustees, accountants, appraisers, etc) along with the date that each was added to the case.
- Motions report** This report will compile a listing of all motions on file in the current case. It can be narrowed by using various criteria such as office, Judge, chapter, filed date and case number terminal digit.
- Related Transactions** This feature groups related transactions within the current case. For example, objections are grouped together, appeal documents are grouped with the underlying order and motion, etc. This report can also be narrowed to display specific categories of documents, documents filed within a specific date or doc. number range and isolate pending documents from terminated documents.
- Status** This feature show all of the statuses that the current case has undergone (including the docket entry that initiated each change in status and the date that each change occurred).
- Trustee** This feature provides the name & address of each trustee involved with the current case.
